PROMOTE FISHING VESSEL SAFETY

The Coast Guard requests your cooperation in promoting the safety of life and property on the nation's waterways. By observing the prescribed laws and regulations and by following safe boating practices, you can help reduce the number of lives lost or injuries sustained and prevent damage to property. Fishermen are strongly encouraged to take advantage of the Voluntary Dockside Examination (VDE) Program. The VDE can save you time and money and more importantly may increase your chances of surviving a marine casualty.

PURPOSE OF BOARDING

The Coast Guard is the primary maritime law enforcement and safety agency of the United States. Under statutory authority Coast Guard boarding officers may, at any time, go onboard vessels subject to the jurisdiction of the United States and make inquiries, examine ship's papers, and inspect, examine and search the vessel for the detection, prevention, and suppression of violations of U.S. laws. The Coast Guard is also authorized to make seizures and arrests and use all necessary force to compel compliance while conducting boardings.

The Coast Guard enforces regulations related to commercial fishing, recreational boating safety, boating while intoxicated, pollution prevention, vessel documentation and registration, and many other areas including criminal laws such as possession and distribution of illegal drugs, illegal weapons, stolen boats, alien smuggling as well as custom laws. Additionally, the Coast Guard checks for compliance with applicable U.S. Fisheries regulations and agreements. All this is done through an active boarding policy in which boating teams follow established procedures for going on board U.S. and foreign vessels subject to U.S. jurisdiction to conduct inspections.

QUESTIONS?

Owners/Operators who have questions concerning Coast Guard Fishing Vessel boardings conducted at sea or would like to schedule a "NO fault / NO penalty" dockside examination, please call the USCG toll free information line at 800-368-5647, then dial 6 for the Commercial Fishing Vessel Safety program. REMEMBER: Voluntary dockside examinations can save you time and money. The presence of a valid examination decal may reduce your chances of being boarded or greatly reduce the at-sea boarding time spent on safety checks.

IMPORTANT NOTICE TO OWNER OR OPERATOR:

If you receive a "NOTICE OF VIOLATION," correct the discrepancy as soon as possible. A completed Voluntary Dockside Examination will reduce the likelihood of being assessed a monetary civil penalty. Continued operation without required safety equipment may be an invitation to a serious accident. It may also result in additional penalties for repeated violation of Federal Law.

PROCEDURES

A copy of this form will be mailed to the responsible Coast Guard District Commander who will review all applicable information to determine if civil penalty action should be commenced. Should civil penalty action be considered appropriate for the violation(s) noted, you will be notified in writing by the Coast Guard Hearing Officer of the charges against you, the maximum penalty which may be assessed, the procedures used in assessing and collecting the penalty, the amount of penalty appearing appropriate, and your rights in the proceeding. Within 30 days of receipt of this notification you may request a hearing or provide, in writing, any information or material in lieu of a hearing that denies, explains, or mitigates the violation. Any information you submit will be used in the determination whether to assess a penalty, close the case without action, remit or mitigate the penalty, or take other action under the applicable statute.

If, after you have been provided notice and an opportunity to a hearing, a civil penalty is assessed, you will be notified of the amount of the penalty assessed. You may appeal the assessment to the Commandant of the Coast Guard within 30 days of receipt or the Coast Guard may begin proceedings to collect the penalty in a Magistrate's or District Court.

For most violations, the maximum penalty is not more than \$5,000.00 for each violation. The maximum criminal penalty for violations is not more than \$5,000.00 or one-year imprisonment or both for each willful, or grossly negligent violation. However, the civil and criminal penalties available for cases involving pollution prevention violations are substantially higher.

PRIVACY ACT STATEMENT:

Required by Public Law 93-579

AUTHORITY:

46 U.S.C.2302, 46 U.S.C.4507, 46 U.S.C.12309, 46 U.S.C.12122, 14 U.S.C.89

PRINCIPAL PURPOSE(S):

To document boarding officer's report, to assess civil penalty action (if appropriate), to facilitate collection of any civil penalties assessed, and to give boat owner/operator written notice of boarding. Information will be retained on file for 3 years and will be considered in the event of future violation(s).

ROUTINE USE(S):

Information may be used to locate a violator and otherwise to assist in the collection of assessed civil penalties. Information is available to other law enforcement agencies as permitted by law.

MANDATORY OR VOLUNTARY DISCLOSURE:

Providing a vessel registration/certificate of number by the user of a vessel is mandatory. Failure to provide vessel registration, upon being boarded by a Coast Guard officer, may subject the owner to a penalty or fine. Providing a Social Security Number, Drivers License number, and date of birth is voluntary.
