## WANTED: Freezing Spray and Icing Observations

Ever experience freezing spray conditions on your vessel? Report it!

Ice accumulated on NOAA Ship *Oscar Dyson* Photo credits: NOAA Office of Marine and Aircraft Operations

Send us your observation:
Date & Time
Latitude & Longitude
Icing conditions
Air temperature
Sea conditions
Wind conditions
Past Experiences

Online reporting form: http://go.usa.gov/WYbm

Freezing spray is an important safety issue in coastal Canadian and United States waters. In an effort to improve freezing spray forecasts, NOAA and Environment Canada are teaming up to evaluate each country's freezing spray forecast models and tools. Analysis of freezing spray cases, forecaster feedback, and ship observations will allow Environment Canada and NOAA scientists and forecasters to better predict dangerous freezing spray conditions to protect life and property at sea.

The success of this study depends on you: whenever possible, please report icing conditions to NOAA and Environment Canada

Send reports online: http://go.usa.gov/WYbm
