

ferential subsidy have a higher percentage citizenship requirement. Subsection (c) requires all of the crew and employees of a cargo vessel be United States citizens. Subsection (d) requires at least 90 percent of the entire complement of a passenger vessel be United States citizens. The phrase “including all licensed individuals” emphasizes that all licensed individuals are required to be United States citizens as required by subsection (a) and that they compose part of the 90 percent requirement under this subsection. Further, under subsection (d), the balance of the complement must be individuals who have a declaration of intention to become a United States citizen or evidence of admission to the United States as a permanent resident and may only be employed in the steward’s department of the passenger vessel.

Except for the master, subsection (e) permits a non-United States citizen to fill a vacancy that occurs for any reason on a United States documented vessel during a foreign voyage until the vessel returns to a United States port where a United States citizen replacement can be obtained. The phrase “for any reason” is used merely for emphasis.

Subsection (f) provides for the penalty for violation of this section.

Subsection (g) requires a deck or engineer officer on a vessel that has been granted an operating differential subsidy or is under the control by the Department of Transportation to be, if eligible, a member of the Naval Reserve. This section does not apply to a vessel of the Coast Guard or the Saint Lawrence Seaway Development Corporation.

Subsection (h) permits the President to suspend the requirements of this section during a proclaimed national emergency or the requirement of subsection (a) for United States vessels documented for foreign trade when the needs of commerce require.

HISTORICAL AND REVISION NOTES

<i>Revised section</i>	<i>Source section (U.S. Code)</i>
8104	46:235 46:405(b) 46:673

Section 8104 prescribes certain working hours and conditions under which working hours are set. The Committee intends that these sections be interpreted in a manner consistent with one another.

Subsection (a) permits an individual to take charge of the deck watch on leaving port and immediately thereafter only if the individual has been off duty for 6 of the 12 hours immediately prior to departure.

Subsection (b) prohibits a licensed individual from being required to work more than 9 of 24 hours in port or more than 12 of 24 hours at sea on an oceangoing or coastwise vessel of not more than 100 gross tons, except in an emergency.

Subsection (c) prescribes a maximum 8-hour day for licensed individuals and seamen on towing vessels operating on the Great Lakes and certain connecting or tributary waters.

Subsection (d) requires certain members of the complement of certain merchant vessels of more than 100 gross tons to be divided into at least 3 successive

watches when at sea. This requirement applies to radio officers only when at least 3 radio officers are employed. Subsection (d) also prescribes a maximum 8-hour work day for licensed individuals and seamen on these vessels.

For the Great Lakes towing vessels and merchant vessels in subsections (c) and (d), subsection (e) requires that seamen be hired only for work in either the deck or the engine department. When in a safe harbor, seamen may be required to do only necessary work on Sundays and certain holidays, unless the vessel is getting underway on a voyage. Further, when in a safe harbor, this subsection restates the maximum 8-hour work day which applies even for anchor watch.

Subsection (f) states that the limitations in subsections (d) and (e) do not apply if the master or other officer decides the crew is needed for certain routine, safety, or rescue activities.

Subsection (g) provides that for a towing vessel (except a Great Lakes towing vessel under subsection (c)), offshore supply vessel, or barge on a voyage of less than 600 miles, the licensed officers and certain crewmembers may be divided into not less than two watches when at sea.

Subsection (h) provides that the licensed operator for a towing vessel at least 26 feet long may not be required to work more than 12 of 24 hours, except in an emergency.

Subsections (i) and (j) prescribe penalties for violations of the provisions of this section and, in certain instances, entitles the seaman to discharge and payment of wages.
